## INFO

**RESEARCH ASSISTANT**  
TSUBASA KOZAI

**CONTACT**  
604-682-2344  
X62468

**PRINCIPAL  
INVESTIGATOR**

DR. MARIANNE HARRIS

You are being invited to participate in a research study on HIV and Brain Health.

**YOUR PARTICIPATION is VOLUNTARY.** You do not need to participate if you do not want to.

The purpose of this study is to understand how HIV affects the brain and how this impacts everyday activities.

A total of 900 people across Canada will participate in this study. If you choose to participate in this study you will be required to meet a research assistant 5 times over 27 months (every 9 months).

These visits can be at the same time as your regular scheduled doctor's visits but will take additional time.

If you choose to participate we will provide you \$40/visit to help cover the cost of transport, parking or childcare.

---

Do you agree to meet with the research assistant to receive more information about the study?  YES

If you are interested in participating, please write down your contact information and return the form to the reception or to a clinic staff member (to the attention of Tsubasa Kozai).
